## Anreise ins Gastland (Empfehlungen, Schwierigkeiten)

### Travelling to the host country (recommendations, difficulties)

i cannot recommend anything.

the difficulty is a money thing cause travelling by train or bus is more expensive and takes a long time. flying is cheap and with the really not enough money you get within the erasmus or the support for travelling with this stands in no relation to actual prizes of green travel. this is a big problem !!!

## Leben im Gastland (Kultur, Unterkunft, Öffentlicher Transport, Essen, Lebenskosten)

### Life in the host country (culture, accommodation, public transport, food, costs of living)

i had difficulties finding a flat in the beginning but after a month it went better. public transport in athens is very bad. the living costs are cheap in comperence to austria but they not cheap in ralation to erasmus money and money people earn in greece. they are actually very high. people are very welcoming. people speak english .

**Bei Auslandsstudien: Reflektion über das Studium**

(Lehrveranstaltungen, Sprache, Lehrende, Studierende, Auslandsbüro an der Gastuniversität)

**Bei Auslandspraktika: Reflektion über das Praktikum**

(Art des Unternehmens, Arbeitsaufgaben, Betreuung)

**Study Mobilities: reflection on the study program**

(courses, language, teachers, students, International Office at the host university)

**Traineeship Mobilities: Reflection on the internship program**

(Type of enterprise, work tasks, support)

the erasmus office in athens was very helpfull at all the time. the language barriers in some courses was there but not that you could not make your work. through diverse translationapps you can make your way. one thing i recognize dis that the teachersystem at kalon technon is very male, old and white. Teaching women are missing there!!!
